Any specific suggestion for improvement

18 responses

Regular appointments should be made ...it will help the departments to maintain its original culture and proper socialisation can also be made. Now we see that the present members are not aware with the old traditions and customs/strengths due to non recruitment no one is here to retain the original fragrance of departments. So it is strongly recommended that in every department proper recruitments should be made .

Specific focus should be given on the placement of students. As much of our subjects are relevant to MBA, still industry knows less about this particular subject and refuses to give employment. At least department should setup link with various industries and make them know about the worth and credibility of public administration.

More internship and research opportunities for students required

No.

I believe practical or situational questions should be added to the exam concerning the topic. Theory can be learnt but how it could be implemented that students must reflect upon. Moreover, all departments at PU should follow a proper outline (consisting the chapter name covered when) that should also be given to the students as well, and proceed following the due dates as we study first two units in 3 months, and then rest two is covered in a few days. Above all, class participation shouldn't be directly related to class attendance. Few students are super active in class and also engage in social and in extra curricular activities, they are absent for few days. No doubt, they get eligible to take exams but that shouldn't affect marks in class participation. It hurts, because even a single mark matters to them alot. Rest, I am somewhere satisfied that whatever I said, most of them have been implemented by my department. Everything has loopholes.

ThankYou

Regards,
Harsimran Kaur

Techers should more engage in Research Work

Need to introduce more courses relevant to international standards.

Very good initiative.

Change the curriculum of public administration department

Please look into the placements of the students. PU should encourage end number of placement drives. We didn't get any at our times.

There is need to work for placement of students and focus on quality of curriculum and promote extraordinary talents of department.

Nothing (already good)

Kindly change the tittle of the MA (pub adm) to MA (pub adm and public policy) or similar other. It will create more employability of the students.

As a student with disability I would like to suggest that some activities or programs must be designed to increase awareness and cooperation amongst the students with no disabilities and with disabilities. I have observed that we people are celebrating every smallest day but when it comes to the word disability days and World braille day that is third December and 4th January respectively there is silence everywhere

Overall it's amazing but hope to increase the number of seats for students in the department maybe 80/90

Syallubus should be updated . More training session or internship oppurtunities should be offered . Fields like E-goverance , typing course M.S Excel work can be provided at Department level .

Active Role of Alumni Dept

Classroom lectures are no sufficient. The curriculum needs to comprise of projects and assignments which was completely missing. There were no tournaments or extra curricular. And most importantly there were no tie-ups for placements. Sadly it was just about getting a degree.
